LEADERSHIP SYSTEM™ CERTIFICATION

Design, facilitate, and scale collective leadership in organizations.

“Since the certification, my business has almost doubled.”

— Certified Leadership System practitioner

For Leadership Circle Profile® certified practitioners

Create a Greater Impact

The pace of change, culture, and team dynamics can no longer be met one leader at a time. This certification equips LCP®-certified practitioners to design, facilitate, and scale a turn-key, systemic leadership program — creating greater impact, longer engagements, and a deliberate leadership culture in the organizations they serve.

Grounded in the Universal Model of Leadership™ and Scaling Leadership (Anderson and Adams).
