COLLECTIVE LEADERSHIP™ CERTIFICATION

Enhance your work with groups, teams and leadership cultures.

Both individual AND collective leadership effectiveness are required to create great organizations where everyone thrives. Senior leaders create culture by their presence and authority. They create a “leadership culture” by the way they lead together. Culture sets the pattern and tone for all of the organization’s leaders, reinforcing a way of leading. Whether it is effective or not, leaders/managers get the message about “what’s expected.”

Research tells us that 38% of organizational performance can be traced to the impact of collective leadership. Helping your clients improve their collective leadership can give them a competitive advantage and the ability to create a thriving work place for everyone.

In this one-day experiential program, you’ll learn how to use the Collective Leadership Assessment (CLA) to

provide senior leaders with feedback/insight regarding their collective impact. CLA is based on the integrated Leadership Circle framework, and measures leaders’ perception of their current leadership culture and compares/contrasts it with their own description of the ideal culture necessary for strategic and organization success. A detailed gap analysis shows specific, actionable areas for improvement.

Additionally, though already certified to use the Leadership Circle Profile Group Report, you will deepen your knowledge on how to use the Group Report with leadership teams. The Group Report provides another look at the team’s collective effectiveness by aggregating all of their individual Profiles. Customizable meeting designs for using the CLA and the LCP Group Report will be shared.

Completion of Leadership Circle Profile Certification is required before attending this program.
