Collective Leadership Assessment Overview

Design Distinctions:

Reactive-Creative Scale

is calculated by adding the (Maximum value in LCS scale of 15) + (Creative Score - Reactive Score). So for Example: 15 + (11.66 - 4.82).

Therefore, the Reactive-Creative Scale can be higher than 15 because we add the top value (15) to the (Creative minus Reactive Score) value. This is done to prevent negative scores and does not change the rank order of scores when it comes to calculating percentiles.

15 Point Scale

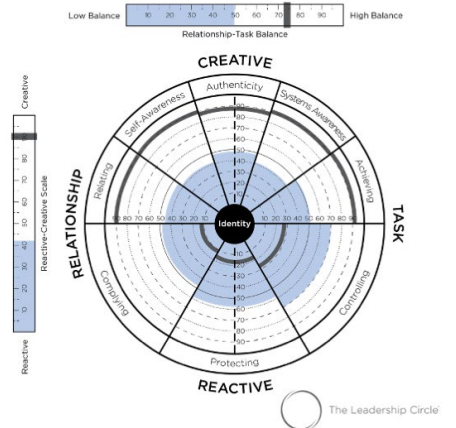

The Collective Leadership Assessment measures on a 15-point scale with 0.5 intervals

Leadership Circle Profile Group Report

Collective Leadership Assessment

Key Differences Between LCP Group Profile and the Collective Leadership Effectiveness Assessment

Leadership Circle Aggregate Group Profile

- Rollup of a collection of individual Leadership Circle Profiles
- Focus of analysis is on the individual, and then scores are aggregated across the selected group
- Is diagnostic in nature, allows a senior team or group to contemplate potential Reactive and Creative patterns as a team or group

Collective Leadership Effectiveness Assessment

- Measures gap between current leadership effectiveness (Actual) and aspirational leadership effectiveness (Ideal)
- Focus of analysis is on collective leadership
- Is directional in nature and deeply informs the Collective Leadership Development Agenda

The Leadership Circle

Working Collective Leadership

In 3 small groups, take 20 minutes to prepare a 10-minute learning for one of the three Cbeyond Leadership Teams.

- ✓ Group 1: Senior Leadership Team
- ✓ Group 2: Sales Leadership Team
- ✓ Group 3: Operations Leadership Team

Consider this to be your Leadership Team's initial debrief of their CLA data. The other participants will play the role of your Leadership Team. Consider:

- ✓ Exploring their current Leadership Effectiveness as a team (ACTUAL). *What does it feel like to work here? What are the Reactive team dynamics?*
- ✓ Exploring their aspirational Leadership Effectiveness as a team (IDEAL). *What would need to be true for this kind of leadership to emerge? What developmental moves might they want to contemplate.*

How percentile scores are calculated:

The Actual % score is calculated by comparing your Actual Avg. score to our data base of Actual (current reality) scores.

The Ideal % score is calculated by comparing your Ideal Avg. score to our data base of Actual (current reality) scores.

The Ideal to Ideal % score (not shown on this page, but shown throughout the report) is calculated by comparing your Ideal Avg. score to our data base of Ideal scores.

THE CREATIVE LEADERSHIP COMPETENCIES

measure key leadership behaviors and internal assumptions that lead to a high fulfillment, high achievement organizational culture.

The Relating Dimension

measures the extent to which leaders in your organization relate to others in a way that brings out the best in people, groups and organizations. It measures how well the collective leadership of the organization builds quality relationships, fosters teamwork, collaborates, develops people, involves people in decision making and planning, and demonstrates a high level of interpersonal skill.

The Self-Awareness Dimension

measures leadership's orientation to ongoing professional and personal development, as well as the degree to which inner self-awareness is expressed through high integrity leadership. It is a measure of emotional and interpersonal maturity. It also measures the extent to which leadership encourages the kind of personal/professional development that results in personal mastery.

The Authenticity Dimension

measures your leaders' capability to relate to others in an authentic, courageous, and high integrity manner. It measures the extent to which their leadership is authentic—not masked by organizational politics, looking good, winning approval, etc. It also measures their ability to take tough stands, bring up the un-discussibles (risky issues the group avoids discussing), to openly deal with relationship problems, and share personal feelings/vulnerabilities about a situation. Courage in the workplace involves authentically and directly dealing with risky issues in one-to-one and group situations.

The Systems Awareness Dimension

measures the degree to which your leaders' awareness is focused on whole system improvement and on community welfare (the symbiotic relationship between the long-term welfare of the community and the interests of the organization).

The Achieving Dimension

measures the extent to which leaders offer visionary, authentic, and high achievement leadership. It measures the extent to which leaders encourage a focus on achieving end results that are at once purposeful and strategic. It measures the creative use of power and effective decision-making.

THE REACTIVE LEADERSHIP STYLES

measure ways of leading that have significant strengths associated with them, but also reflect inner beliefs and behaviors that limit effectiveness, authentic expression, and empowering leadership.

The Controlling Dimension

measures the extent to which leaders establish a sense of personal worth through task accomplishment and personal achievement. It measures the extent to which leaders push themselves and others hard and use overly driven and aggressive tactics to get others to do what they want.

The Protecting Dimension

measures how leaders act to protect themselves and establish a sense of worth/security by emotionally withdrawing and remaining distant, hidden, aloof, cynical, superior, and/or rational. This stance is often intellectually bright, but overly critical and cold.

The Complying Dimension

measures the extent that leaders act in ways that are overly conservative, cautious, and/or polite. It measures the extent to which leaders get a sense of self-worth and security by complying with the expectations of others rather than acting on what they intend and want.

THE SUMMARY MEASURES

bring everything together. They summarize the above into two useful measures.

Relationship-Task Balance

measures the degree of balance your organization shows between the achievement competencies and the relationship competencies. It is a measure of the over, under, or balanced development of either half of the equation (the people half or the task half) that makes for great leadership. Good balance results in high percentile scores.

Reactive-Creative Scale

reflects the degree of balance between the reactive dimensions and the creative dimensions. The percentile score here gives you a sense of how your collective leadership compares to that of other organizations. It measures the amount of energy your organization puts into reactive versus creative behavior. It suggests the degree to which your leadership, relationships, and goal-oriented behaviors are coming out of a reactive or creative orientation. It also suggests the degree to which leaders self-concepts and inner motivations come from within or are determined by external expectations, rules, or conditions.

Collective Leadership Assessment

| |
|--|
| Controlling |
| <u>Autocratic</u> measures your leadership's tendency to be overly forceful, aggressive and controlling. It measures the extent to which leader's use of power is exercised at the expense of people/team development and at the expense of high performance. |
| <u>Driven</u> is a measure of the extent to which leaders are in overdrive. It measures the extent to which leaders, by example, encourage workaholic levels of effort. |
| <u>Ambition</u> measures the extent to which leaders compete with one another out of a need to get ahead, move up in the organization, and be better than others. |
| <u>Perfect</u> measures the extent to which leaders push those around them to attain flawless results and perform to extremely/excessively high standards. This push is often driven by an inordinate need to look good and/or fear of failure. |
| Protecting |
| <u>Critical</u> is a measure of your leadership's tendency to take a harshly critical, questioning, and cynical attitude that hurts people's feelings and diminishes their self-confidence. |
| <u>Distance</u> measures leadership's tendency to protect themselves through a strategy of withdrawal, being superior and remaining aloof, emotionally distant and above it all. |
| <u>Arrogance</u> measures your leadership's tendency to project a large ego through behavior that is experienced as superior, egotistical, and self-centered. |
| Complying |
| <u>Belonging</u> measures leadership's need to play it safe, go along to get along, conform, follow the rules, and meet the expectations of those in authority. |
| <u>Passive</u> measures the degree to which leaders have given away their power to others and to circumstances outside their control. It is a measure of powerlessness and not taking accountability for and ownership of results. |
| <u>Conservative</u> measures the extent to which leaders think and act conservatively, follow procedure, and live within the prescribed rules of the organization. It is a measure of how much emphasis is placed on establishing and following procedures and rules. |
| <u>Pleasing</u> measures leadership's need to seek others support and approval in order to feel secure in acting or speaking up. It is a measure of the extent to which harmony is pursued at the expense of achieving results. |

COLLECTIVE LEADERSHIP ASSESSMENT QUESTIONS

I feel the team/organizational leaders:

RELATING Dimension Questions

- Connect deeply with others.
- Form warm and caring relationships.
- Create a positive climate that supports people doing their best.
- Promote high levels of teamwork through their leadership style.
- Extensively involve people in decision making.
- Push decision making and problem solving down to the appropriate level.
- Create common ground for agreement.
- Work to find common ground.
- Help people learn, improve, and change.
- Are people builders/developers.
- Display a high degree of skill in resolving conflict.
- Take responsibility for their part of relationship problems.

RELATING

Caring Connection measures leadership's interest in and ability to form warm, caring relationships.

Fosters Team Play measures leadership's ability to foster high-performance teamwork among team members that report to you, across the organization, and within teams in which you participate.

Involvement measures how well leaders involve people in decision making and planning.

Collaborator measures the extent to which leaders model and create a culture that encourages collaboration within teams and across the organization.

Mentoring & Developing measures your leaders' ability to develop others through mentoring, maintain growth-enhancing relationships, and help people grow and develop personally and professionally.

Interpersonal Intelligence measures the interpersonal effectiveness with which leaders listen, engage in conflict and controversy, deal with the feelings of others, and manage their own feelings.

SELF-AWARENESS Dimension Questions

- Take forthright action without needing recognition.
- Get the job done with no need to attract attention to themselves.

Balance work and personal life.
Find enough time for personal reflection.
Are composed under pressure.
Handle stress and pressure very well.
Investigate the deeper reality that lies behind events/circumstances.
Learn from mistakes.

SELF-AWARENESS

Selfless Leader measures the extent to which leaders pursue service over self-interest, where the need for credit and personal ambition is far less important than creating results—which serve a common good.

Balance measures leadership's ability, in the midst of the conflicting tensions of modern life, to keep a hearty balance between business and family, activity and reflection, work and leisure. It measures the extent to which the organization supports others maintaining this healthy balance.

Composure measures your leaders' ability, in the midst of conflict and high-tension situations, to remain composed and centered, and to maintain a calm, focused perspective.

Personal Learner measures the degree to which leaders demonstrate a strong and active interest in learning, personal and professional growth, as well as the extent to which they support this in the organization.

AUTHENTICITY Dimension Questions

Lead in a manner that is completely aligned with their values.
Are good role models for the vision they espouse.
Are courageous in meetings.
Speak directly even on controversial issues.

AUTHENTICITY

Integrity measures how well leaders adhere to the set of values and principles that they espouse; that is, how well they can be trusted to “walk their talk.”

Courageous Authenticity measures leaders' willingness to take tough stands, bring up the “un-discussibles” (risky issues the group avoids discussing), and openly deal with difficult relationship problems.

SYSTEMS AWARENESS Dimension Questions

Allow customers to shape our decisions and direction.
Solicit customer input that often results in organizational change.

Attend to the long-term impact of strategic decisions on community.
Create a vision that goes beyond the organization to include making a positive impact on the world.
Allocate resources appropriately so as not to use people up.
Balance short-term results with long-term organizational health.
Evolve organizational systems until they produce envisioned results.
Redesign the system to solve multiple problems simultaneously.

SYSTEMS AWARENESS

Customer Focus measures the extent to which customer satisfaction is the focus of your business and extent to which customers are invited to shape organizational direction, decisions, and processes.

Community Concern measures the service orientation from which leaders lead. It measures the extent to which they link their legacy to service of community and global welfare.

Sustainable Productivity measures your organization's ability to achieve results in a way that maintains or enhances the overall long-term effectiveness of the organization.

Systems Thinker measures the degree to which leaders' think and act from a whole system perspective as well as the extent to which they make decisions in light of the long-term health of the whole system.

ACHIEVING Dimension Questions

Establish a strategic direction that helps the organization to thrive.
Provide strategic direction that is thoroughly thought through.
Articulate a vision that creates alignment within the organization.
Inspire others with vision.
Are proficient at achieving high quality results on key initiatives.
Pursue results with drive and energy.
Are efficient decision makers.
Make decisions in a timely manner.

ACHIEVING

Strategic Focus measures the extent to which leaders establish and follow a thorough discipline of strategic planning that focuses the organization on the "right stuff."

Purposeful & Visionary measures the extent to which leadership provides a clearly communicated organizational purpose and vision. It measures how well they align the organization by modeling commitment to this direction.

Achieves Results measures the degree to which your organization is goal directed and has a track record of goal achievement and high performance.

Decisiveness measures leaders' ability to make decisions on time, and the extent to which they are comfortable moving forward in uncertainty.

CONTROLLING DIMENSION QUESTIONS

Need to perform flawlessly.

Need to excel in every situation.

Push themselves too hard.

Try too hard to be the best at everything they take on.

Are excessively ambitious.

Believe winning is what really matters.

Have to get their own way.

Pursue results at the expense of people.

CONTROLLING

Perfect measures the extent to which leaders push those around them to attain flawless results and perform to extremely/excessively high standards. This push is often driven by an inordinate need to look good and/or fear of failure.

Driven is a measure of the extent to which leaders are in overdrive. It measures the extent to which leaders, by example, encourage workaholic levels of effort.

Ambition measures the extent to which leaders compete with one another out of a need to get ahead, move up in the organization, and be better than others.

Autocratic measures your leadership's tendency to be overly forceful, aggressive and controlling. It measures the extent to which leader's use of power is exercised at the expense of people/team development and at the expense of high performance.

PROTECTING Dimension Questions

Are arrogant.

Have egos that are too big.

Hurt people's feelings.

Put people down.

Are emotionally distant.

Remain standoffish.

PROTECTING

Arrogance measures your leadership's tendency to project a large ego—behavior that is experienced as superior, egotistical, and self-centered.

Critical is a measure of your leadership's tendency to take a harshly critical, questioning, and cynical attitude that hurts people's feelings and diminishes their self-confidence.

Distance measures leadership's tendency to protect themselves through a strategy of withdrawal, being superior and remaining aloof, emotionally distant and above it all.

COMPLYING Dimension Questions

Lack passion.

Are wishy-washy in decision making.

Try too hard to conform to the group's rules/norms.

Work too hard for others' acceptance.

Need to be accepted by others.

Need the approval of others.

Are too conservative.

Follow conventional ways of doing things.

COMPLYING

Passive measures the degree to which leaders have given away their power to others and to circumstances outside their control. It is a measure of powerlessness and not taking accountability for and ownership of results.

Belonging measures leadership's need to play it safe, go along to get along, conform, follow the rules, and meet the expectations of those in authority.

Pleasing measures leadership's need to seek others' support and approval in order to feel secure in acting or speaking up. It is a measure of the extent to which harmony is pursued at the expense of achieving results.

Conservative measures the extent to which leaders think and act conservatively, follow procedure, and live within the prescribed rules of the organization. It is a measure of how much emphasis is placed on establishing and following procedures and rules.
